HEAR

The  
Call

A n s w e r  
i t

*The 600i is the manifestation of a need that has driven  
Humanity from the earliest days of charting our homeworld to  
the modern era where we chronicle stars: the need to know.*

STYLE

The Art  
of perfection

**FREE**  
Form

**Bold  
Design**

*Elegant stylings with the heart of a work-horse. The 600i balances performance and versatility in a sleek and timeless form. This is the way to see the universe.*

ASCEND

A man in a dark suit is sitting on a futuristic airplane cabin seat. The cabin is sleek and modern, with white and grey tones and blue ambient lighting. The seats are wide and comfortable-looking. The man is looking out of a large window on the right side of the cabin. The overall atmosphere is clean, spacious, and high-tech.

*Origin engineers created a design that feels expansive, yet intimate. Cutting edge, but familiar. The 600i fuses all of these into a seamless flight experience.*

# SOPHISTICATION

Luxury without  
compromise

*Whether you are transporting precious goods or seeking out new corners of the universe, the 600i can handle any lifestyle. Multiple module loadouts combine luxury and performance while elevating comfort to a new level.*

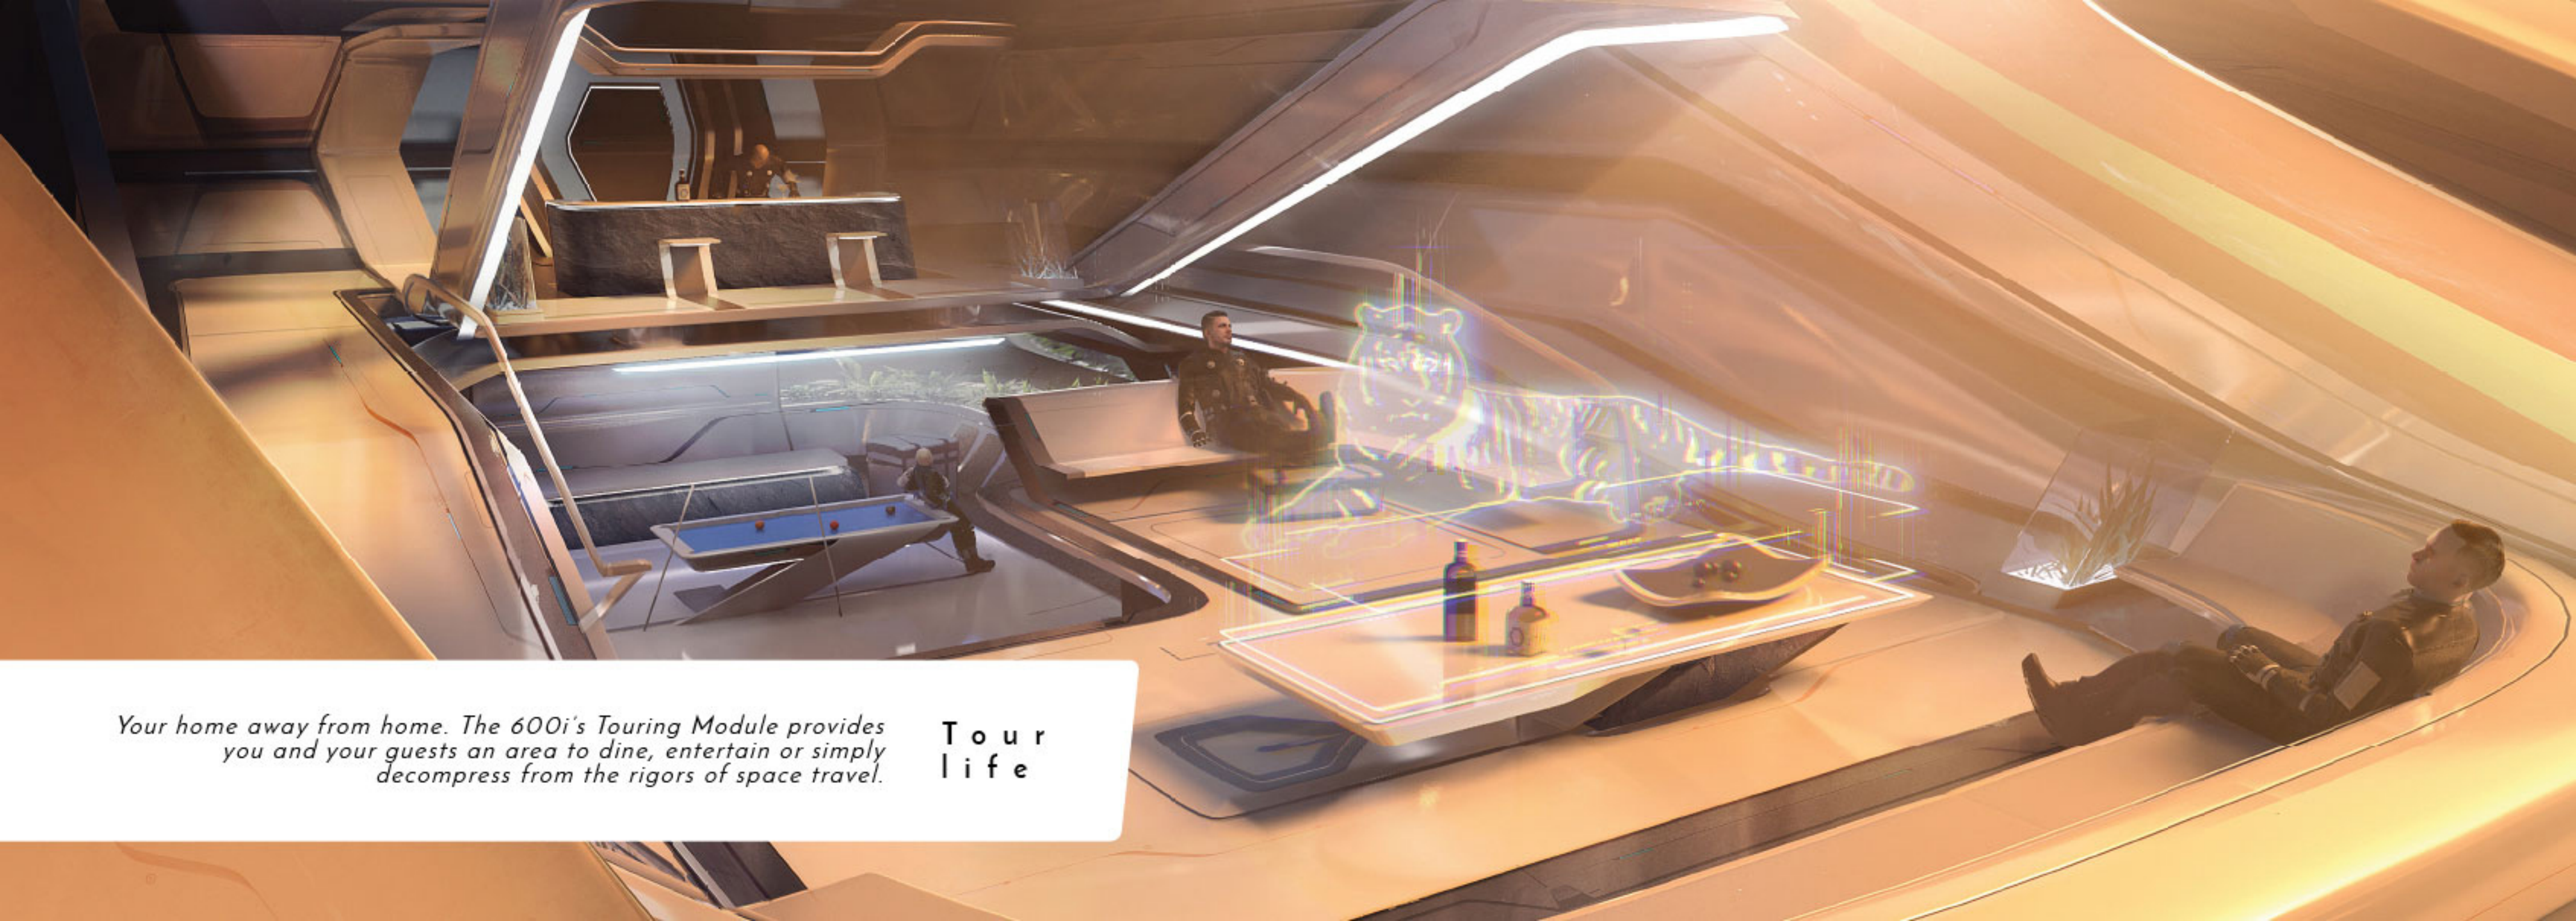

**D e f i n e  
s p a c e**

The image shows a futuristic cockpit with a wraparound canopy. In the foreground, a large, grey, ergonomic control station is visible. In the background, another control station is positioned, surrounded by several digital displays showing various data and charts. The cockpit is illuminated with soft, ambient light, and the view through the canopy shows a starry space background.

T o t a l  
c o n t r o l

*Behold the stars. The 600i's wraparound canopy provides stunning vistas and situational awareness in equal measures, all from the comfort of one of three multipurpose stations.*

*Your home away from home. The 600i's Touring Module provides you and your guests an area to dine, entertain or simply decompress from the rigors of space travel.*

**Tour  
life**

# INNOVATION

Love the  
journey

ORIGIN  
600i touring spec

*The universe is waiting. The 600i's Explorer module provides a comprehensive suite of mapping systems and scanning gear to help you chart your way into history. External utility points allow for additional arrays, while the dedicated avionics system will help parse the incoming data. A Marlowe equipment locker, providing safe and secure storage of small arms and additional equipment.*

S e e k  
o u t

*Although the 600i relies on speed and maneuverability to avoid trouble, it features a comprehensive offensive and defensive package to back you up in case conflict is unavoidable. A pair of remote turrets, each with a pair of size two mounts, and three fixed size five weapon positions can forcefully deter anything unlucky enough to be caught in their path.*

*Take a look under the hood and you will find an equally impressive and powerful work of art. The 600i houses four robust engines allowing it to outpace most other ships of its class. All that power is distributed between twelve fixed thrusters that have been seamlessly embedded into the linework of the body, providing higher responsiveness and speed. The 600i's hull features Origin's proprietary new GLAX plating, allowing the ship to be much lighter than comparably sized ships.*

**M u l t i  
r o l e**

*Some ships are refined. Others sporty. Some rugged. The 600i defies comparison because it is all three.*
